

## Challenging lifting job and limited space?

The knuckle boom cranes of Wagengborg Nedlift offer a solution!

### Unique features:

- Lifting and boom lift function
- Electrically operated
- Limited installation space needed

### Types:

- 92 tm knuckle boom cranes
- 165 tm knuckle boom cranes

## KNUCKLE BOOM CRANES

### POWERFUL LIFTING ACCURATE TO A SQUARE CENTIMETRE

Wagengborg Nedlift's knuckle boom cranes are perfectly suited for heavy lifting work at extremely narrow and difficult to reach locations, including:

- Placing equipment through the wall into a workshop.
- Unloading and placing equipment inside a building.
- Lifting equipment at a factory site or construction site with minimal installation space.
- Lifting activities on or beside public roads at a location with limited installation space, in order to keep traffic disruption to a minimum.

### SUPPLIED WITH A TWO-PERSON BOOM LIFT

Moreover, the knuckle boom cranes can be supplied with a two-person boom lift. This offers the following **benefits**:

- Avoiding use of a mobile crane with a separate boom lift (and the associated comprehensive inspection procedure).
- Work at height is carried out safely and efficiently.

### SUSTAINABLE USE

The knuckle boom cranes are **fully electrically** operated in both lifting and boom lift configuration. The cranes are equipped with a (demountable) electro-hydraulic power pack, powered by 3-phase power.

### TECHNICAL SPECIFICATIONS

#### 92 TM KNUCKLE BOOM CRANE

- hydraulic outreach 18 metres
- outreach with telescopic fly jib max. 30.4 metres
- equipped with a two-person man basket
- fully electrically-operated
- crane can be folded and unfolded quickly and easily
- 100% load chart at 360°

### TECHNICAL SPECIFICATIONS

#### 165 TM KNUCKLE BOOM CRANE

- hydraulic outreach 18 metres
- outreach with telescopic fly jib max. 31 metres
- equipped with a two-person man basket
- fully electrically-operated
- crane can be folded and unfolded quickly and easily
- 100% load chart at 360°

## Wagenborg Nedlift

For many years, Wagenborg Nedlift has been building lasting relationships with its customers and partners at home and abroad. This allows the Wagenborg Nedlift team to offer unique, professional and safe solutions for heavy transport, lifting, engineering and additional services.

### Wagenborg Nedlift focuses on:

- Safety at work
- Skilled and sustainably deployable team
- Enduring customer relationships
- Sustainability and innovation
- Future-proof business operations

### Wagenborg Nedlift specialises in:

- Lifting and transport engineering (Wagenborg Engineering)
- Logistic solutions for complex transport issues
- Professional machine relocations
- Safe and efficient rental solutions with a modern fleet of equipment
